COLD STORAGE REPORT

AS OF JUNE 1, 1942

SUMMARY

Reports to the Department of Agriculture from cold storage warehouses indicate that the occupied space in public warehouses on June 1, 1942 was 55 percent of cooler capacity and 65 percent of freezer capacity. This shows an increase of 7 percent in cooler occupancy and of 3 percent in freezer occupancy from a month ago.

Reports of commodity holdings on June 1 showed increases over a year ago for frozen fruits and vegetables, dairy products, eggs, frozen and cured beef, and trimmings. Stocks of frozen poultry, frozen pork, and lard were below those of June 1, 1941.

The most significant increases were in creamery butter stocks which were 8 million pounds above those of a year earlier; American cheese, 93 million pounds heavier than a year ago; shell eggs, 1.5 million higher; frozen eggs, 81.3 million higher; frozen and cured beef, 24 million above a year ago and trimmings 33 million higher.

Cold Storage holdings of apples remaining on hand on June 1, 1942 totaled 1.3 million bushels or 1 million bushels below the June 1, 1941 holdings and 0.4 million below the 5-year 1937-41 average for June 1.

Stocks of frozen and preserved fruits totaled approximately 106 million pounds or 14.5 million above those of a year earlier and 26.6 million pounds above average.

Frozen vegetable stocks totaled 48.5 million pounds. Creamery butter holdings on June 1 were 64.8 million pounds and included 1.7 million pounds owned by the Dairy Products Marketing Association and 6.7 million owned by the Federal Surplus Commodities Corporation. Total cheese stocks were 223.2 million pounds. Included in this amount were 77.5 million owned by F. S. C. C. There were 6.9 million cases of shell eggs and 223.3 million pounds of frozen eggs or a total case equivalent of 12.9 million cases reported in storage. Of this total F. S. C. C. owned 37,000 cases of shell and 6.9 million pounds of frozen eggs.

## FRESH FRUITS

Stocks of apples in cold storage on June 1, 1942 were reduced to 1,259,000 bushels. This quantity is 1,052,000 bushels below June 1, 1941 stocks and 436,000 bushels below the June 1, 5-year (1937-41) average. The out-of-storage movement during May was 2,262,000 compared with 3,686,000 for the same period a year ago and 3,027,000 for the average.

(See table on page 8 for June 1, 1942 holdings by geographic divisions)

## FRUITS &amp; VEGETABLES

There were 105,905,000 pounds of frozen fruits and berries reported in freezers on June 1, 1942. This quantity exceeded stocks on hand on June 1, 1941 by 14,499,000 and the 5-year average by 26,595,000. Frozen vegetable stocks on hand were 48,523,000 pounds or 4,645,000 pounds above those on hand on June 1, 1941.

## DAIRY &amp; POULTRY PRODUCTS

Stocks of creamery butter on hand on June 1, 1942 were 64,797,000 pounds. This was 8,005,000 more than stocks on hand a year earlier and 15,825,000 pounds above the June 1, 5-year (1937-41) average. Included in the above figures are 6,727,000 pounds owned by the Federal Surplus Commodities Corporation and 1,727,000 pounds held by the Dairy Products Marketing Association. Stocks of American cheese again broke the all-time record for volume. Holdings on June 1 were 195,999,000 pounds. This quantity is 93,130,000 pounds above June 1, 1941 stocks and 117,565,000 pounds above average. Of the total in storage 77,455,000 pounds are held by F. S. C. C.

Stocks of shell and frozen eggs were again significantly higher than in past years. Holdings of shell eggs totaled 6,904,000 cases and frozen eggs 223,316,000 pounds or a total case equivalent of 12,859,000. This latter quantity exceeds the total case equivalent for June 1 a year ago by 3,696,000 and the 5-year average by 3,477,000. The unusual situation is obviously caused by quantities of both shell and frozen eggs held in storage and ear-marked for future drying against commitments of dried eggs for future delivery to the F. S. C. C. THE COMMITMENTS ARE LISTED IN THE BOX BELOW. Reports from egg dryers which are not entirely complete indicate that included in the above total figures on egg stocks are 2,818,000 cases of shell and 59,099,000 pounds of frozen, ear-marked for drying.

Total frozen poultry stocks were 80,142,000 pounds. This quantity was 7,291,000 pounds below those on hand June 1, 1941 but 7,036,000 pounds above average.

1/ Frozen eggs are converted on the basis of 37.5 pounds to the case.

2/ SPECIAL NOTE: 80 percent of total frozen eggs reported as of June 1, 1942, were classified as follows:  
Whites - 22 percent; Yolks - 17 percent; and mixed - 61 percent.

3/ Carried under "Miscellaneous Poultry" previous to January 1, 1940.

## MEATS AND LARD

Total stocks of all frozen and cured meats on hand June 1, 1942 were reported at 774.2 million pounds. This quantity was 181.4 million pounds below that on hand on June 1, 1941 but 36.8 million pounds above the June 1, 5-year (1937-41) average. Frozen and cured beef holdings totaling 100.2 million pounds were 24 million pounds above those of a year earlier and 43.5 million above average.

Stocks of frozen and cured pork, 558.4 million pounds, were below those of a year ago by 240 million pounds and below the 5-year average by 46.7 million pounds.

Stocks of frozen and cured trimmings reached significant proportions. There were 109.8 million pounds reported. This item was 33 million pounds above holdings of a year ago and 37 million pounds above average.

Lard and rendered pork fat stocks were reduced by 7.6 million pounds which left a total on June 1 of 118.7 million pounds. This quantity is 255.2 million pounds below that on hand a year ago and 104.4 million pounds below average. There was a relatively light out-of-storage movement during May 1942 which compares with an into-storage movement of 46.2 million pounds during May 1941. The 5-year average movement indicates an increase of 12.1 million.

The Federal Surplus Commodities Corporation reports that at the beginning of June it held in storages outside of processors hands 1,352,000 pounds of frozen boneless beef, 24,390,000 pounds of frozen and cured pork, and 928,000 pounds of lard. These quantities are included in the total figures tabled below.
